

“We want to create the future of European railways together with you.”

- Imagine you have two minutes to tell the world how you would want to shape the future of railways.

With innovations that can create better, quieter, more comfortable, more secure and reliably trains we see a bright future for rail transport for both people and goods.

- Nevertheless, you are the future traveller, so your needs, thoughts and ideas are the most important.

- What changes do you wish for? How would you inspire more young people? What is important for you as a traveller?

”Take part in the video contest and be part of the future of railways!”

As part of [Ter4Rail](#), a Shift2Rail funded project, we have launched a [video contest](#) which will focus on your thoughts, needs and ideas.

How can you enter?

A team, with maximum 4 participants under 26 years from a European country (EU28), enters the competition with their contribution via the [website](#).

What are we looking for?

It may be any kind of video material between 60 and 120 seconds and in English. The video should illustrate, explain and show the view and thoughts of your team and also be able to attract attention and create an emotional reaction from the viewer. It should also mention at least one innovation made within the [Shift2Rail Joint undertaking](#) and how this can lead to the changes that they want to see in the future. We will provide you with more information

VIDEO CONTEST

Future of the European Railways

about these innovations on our [YouTube channel](#).

Why should you take part?

All submissions will be added to our [YouTube channel](#). The winning team will be elected according to a combination of the most viewed video and the votes from an appointed Jury.

First Prize:
